He based his identification chiefly on the clothing worn by the victim.

Buckmeister's Arrest. While the sheriff's forces and the police were working on the case yes-terday afternoon, word came to them Fluckmeister's wife. known around town as May Bergonier before her marriage to Buckmeister on May 14, that her husband could tell something about the murder. It did not take Sheriff Wilkerson long to get a hold of Buckmeister and place him in the county Jali. Buckmelster was emphatic in his assertions as to his in-nocence and declared that he knew absolutely nothing about the murder and had never seen a man who looked like the murdered man. All kinds of "sweating" failed to get any admisstons of any sort from Buckmeister but the sheriff thought it would be a good policy to keep him in custody while the case was being investigated. The woman was questioned again this morning by the sheriff as to her story night that her husband knew something about the murder and she declared that the person she had talked with, about the general murder business which has been engaged in within the vicinity of the city for the rast few days, had misunderstood her. She insisted that what she had said to this party who had informed the po-lice was that her husband was familiar with the talk that was going on in the neighborhood about the Markinson murder for which Wilburn Van Horn.

### BEATEN AND ROBBED.

G. G. Carter Has a Terrible Experience With Holdup Men.

Between four and five o'clock Saturday afternoon Mr. G. G. Carter, who lives at 1308 West Gordon street North Topeka, was assaulted and badly used up. The assault took place at the Rock Island crossing in North To-peka, and was committed by two white fellows. One of them was Alf Cochran, who is now at the county jail. It is believed the assailants got only about \$7.

When the police reached the scene of the trouble Mr. Carter was lying on the ground near the Rock Island tracks with his face and head badly bruised up. Cochran and his "assistant," whom the police have not yet located, attacked Carter with a piece of a railroad iron and beat him most improved the control of the head and most unmercifully about the head and most unmercifully about the head and face. It is generally admitted among the state house people that Governor E. W. Hoch will go out of his job as governor of Kansas worth about \$20,000 more than when he came in. This is probably about the only time in the history of the state when a governor has been able to make anything out of the office, at least by legitimate means.

Governor Hoch has managed to save money by economy and hard work "on the side." Some people may criticize Governor Hoch for delivering Chautauqua lectures during the summer months while he is being paid a good salary to serve as state executive, but it must be admitted that Governor Hoch

Former governors not only have been obliged to worry along on \$2,500 a year, but they have also been obliged to live at a hotel while in Topeka. Their hotel bills and clothes have more than used up the \$2,500 salary. Governor Hoch not only gets the \$5,000 salary, but gets the free-use of the governor's mansion
